

# Phone off. Permission on.

A prefunded payment permission  
that can leave your phone.

The sandwich is ready.  
My battery is not.

**1% battery.**  
**100% terrible timing.**

What if the permission was ready before the battery died?

Give the paper limits.

One merchant.

One amount.

An expiry. One claim.

Prefunded in the vault. Enforced by the contract.

# Prepare. Carry. Claim.

## 01 / BUYER ONLINE

Sign + reserve

Merchant, amount, expiry

## 02 / PRIVATE HANDOVER

→ Carry the QR

No wallet private key

## 03 / MERCHANT ONLINE

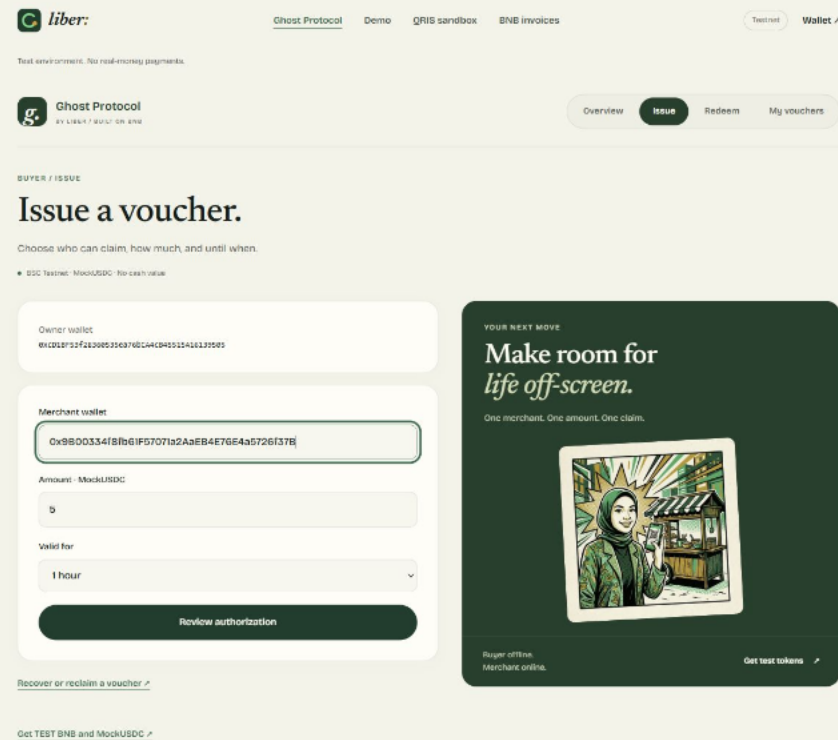

→ Claim once

Named wallet + gas

Unused? Owner reclaims at or after expiry.

# Review first. Reserve second.

Choose the recipient.  
Set the exact amount.  
Pick an expiry.

The screenshot displays the 'liber: Ghost Protocol' interface. At the top, there's a navigation bar with links for 'Ghost Protocol', 'Demo', 'QRIS sandbox', 'BNB invoices', 'Testnet', and 'Wallet'. Below this, a sub-header reads 'Test environment. No real-money payments.' The main section is titled 'Issue a voucher.' with a subtitle 'Choose who can claim, how much, and until when.' A note specifies '• ERC testnet: MockUSDC for cash value.' The form includes fields for 'Owner wallet' (0x102B752F2E30E3563762C4C0451241613065), 'Merchant wallet' (0x9B0033418fb61F57071a2AaE84E76E4a5726137E), 'Amount - MockUSDC' (5), and 'Valid for' (1 hour). A 'Review authorization' button is at the bottom. To the right, a dark green card titled 'YOUR NEXT MOVE' says 'Make room for life off-screen.' and features an illustration of a person at a food stand. At the bottom of the card, it says 'Ruger offline. Merchant online.' and 'Get test tokens'.

# The paper has boundaries.

Wrong merchant → rejected

Already used → rejected

Too early to reclaim → rejected

No admin withdrawal. No upgrade path.

Share active codes privately. Delivery is outside the contract.

# Inspect the paper trail.

## 5 MockUSDC

Claimed by the named merchant.
